Greetings from the World Neem Organisation!

It won't be an exaggeration to call Neem the 21st century's 'Green Mantra'. Neem is the 'Green Gold' for generations to come. Neem is the 'Green Shield' of Agriculture, Human and Animal Health, and the Environment. In a nutshell, Neem is the 'Green Economy' of the Globe. Due to its remarkable potential for sustainable development, the Neem tree has been rightly declared by the United Nations as "The Tree of the 21st Century". Several multinational companies are venturing into Neem-based products. Extensive research has unequivocally demonstrated that neem offers promise as a safe and effective solution for multifarious problems in Food, Health, and Environment.

ABOUT WNO
